19th February 1993

Jamshedpur, India

HELLO

I am a creative developer with a flair for design. I like to engage myself with the latest technologies and strive for learning something new every day. Challenges excite me and so does parties, adventures, sports and music.

EXPERIENCE

Amazon

2015 - 2016

Software Development Engineer

- As part of the Amazon Fashion team, I owned several features end to end, brainstorming concepts, proposing UX, full-stack implementation and monitoring.
- One such feature was aimed at showing search results on the detail page of the Amazon retail website. Other features that I developed include a sticky navigation bar for quick access to detail page sections, a sleek image carousel on mobile detail pages such that customers get a peek view of the alternate product images.
- One of my ideas, suggesting a completely new Amazon venture has been adopted officially into the upcoming year's road map.

SafetyKart

June-July 2013

Design Intern

- Product design for a sanitization spray namely 'Pee Safe'. This product is now selling in 3 countries.
- Was responsible for designing elements for marketing which included web banners, info-graphics and posters.

Freelancing

Since 2012

Graphic designer

- I have been freelancing primarily as a brand identity designer. Check out my work on [Behance](#) or [Dribbble](#).

EDUCATION

Birla Institute of Technology, Mesra

2011 - 2015

B. Tech in Computer Science and Engineering

☆ 8 CGPA

Carmel Junior College, Jamshedpur

2009 - 2011

Higher Secondary Education

☆ 95.4%
