March 2017 - present, Seattle

Software Developer - Amazon UI

- Building a new templating language and its editor plugins to help devs at Amazon write secure HTML.
- Owned the UI design and implementation of a dashboard, JS error monitoring tool and a documentation platform.
- Collaborated with teams in Jordan to enable right-to-left for our UI components to enable the Amazon UAE launch.
- Worked on Amazon's site-wide redesign, acting as the bridge between our design and dev team.

I focus on creating functional, meaningful and aesthetic solutions through design and code.

July 2015 - March 2017, Bangalore

Software Developer - Amazon Fashion

- Part of the inceptive team for Prime Wardrobe, Amazon's service that enables customers to try on apparels before buying them.
- Lead the ideation of Amazon Spark, a platform to discover things from people who share your interests.
